

Uttarakhand Disaster Preparedness and Resilience Project (U-PREPARE)

CONTRACTOR SOCIAL MANAGEMENT PLAN (C-SMP)

For

**Construction of 84 M span Steel Girder Motor Bridge
over Kotigaad in KM 01 of Tikochi-Duchanu-Kiranu-
Sirtoli Motor Road in Dist. Uttarkashi under EPC mode.**

May 2025

**Field Implementation Unit- The Executive Engineer, Construction Division, PWD, Purola,
Uttarkashi.**

Contractor- M/s Tons Builder's, Purola Uttarkashi.

SOCIAL MANAGEMENT PLAN

Description of the Project

The proposed new intermediate lane 84 Mtr span Steel Girder Motor Bridge over Kotigaad in KM 01 of Tikochi-Duchanu-Kiranu-Sirtoli Motor Road in Dist. Uttarkashi under EPC mode. which is taken up under the priority investment sub-projects of U-PREPARE. The carriageway width of the bridge is 5.75 Mtr. The topography of project area is hilly terrain. In addition to the proposed bridge, it is also proposed to construct 5.90 M width approach road of total 120 m length.

Objectives of SMP

The Social Management Plan (SMP) consists of the set of mitigation, monitoring and institutional measures to be taken during the different stages of the project to eliminate adverse social impacts, to offset them, or to reduce them to acceptable levels. The plan also includes the actions needed for the implementation of these measures.

The broad objective of the Social Management Plan (SMP) is to ensure that social risks and impacts identified during the social screening and SIA process, are effectively addressed for the pre-construction, construction and operation phases of the sub-project. The SMP specifies the mitigation and management measures to be implemented in the project along with institutional arrangement for the implementation and monitoring and reporting including the budget.

Key Statutory Clearances/ Permits and Licences requirements

Based on the proposed activities of the project, the contractor has to comply with all the relevant regulations on Social Safeguards. The project requires a number of licenses/permits under different acts and rules. The type of permits and licenses required for the sub-project is listed under **Table 1.2**

Table 0-1: Applicability of National and State Statutes and Regulations

S. No.	Type of Permits and Licenses	Relevant Acts and rules	Remarks
1.	Labour License and insurance	The Building and Other Construction Workers (Regulation of Employment & Conditions of Service) Act, 1996 Uttarakhand Building and Other Construction Workers (Regulation of Employment & Conditions of Service) Rules, 2005	<ul style="list-style-type: none"> • Labour license has been taken, which is valid upto: 24 Nov 2025
2.	Workmen's Compensation Policy	As per The Building and Other Construction Workers (Regulation of Employment and Conditions of Service) Act 1996 Uttaranchal Building and Other Construction Workers (Regulation of Employment and Conditions of Service) Rules, 2005.	<ul style="list-style-type: none"> • Workmen's Compensation Policy has been taken, which is valid upto: 23 Jan 2026
3.	NOC/Agreement for Labour Camp	NOC from local representatives and agreement with the land/house owner to establishment of labour camp.	<ul style="list-style-type: none"> • Agreement has been signed with the land owner.

Summary of Social Risks and Impacts

Issues/ Components	Anticipates Risks & impacts	Risk Category
Design & Pre-Construction Phase		
Land Acquisition	<ul style="list-style-type: none"> Project does not involve any private land acquisition 	Nil
Private structures	<ul style="list-style-type: none"> No private structures will be affected due to project 	Nil
Utility shifting	<ul style="list-style-type: none"> No shifting of public utilities is required 	Nil
Construction Phase		
Water Use	<ul style="list-style-type: none"> Impact on the local water sources due to its usage as construction water. Chances of disruption/damage to the community water supply sources 	Low
Construction Camp	<ul style="list-style-type: none"> Influx of construction work force and supplier who are likely to construct temporary sheds in the vicinity. Likely sanitation and health hazards & other impacts on the surrounding environment due to inflow of construction labourers. Health risks due to lack of health and sanitation conditions through disposal of sewage on open land which may cause mosquito nuisance, water borne diseases etc. Chances of spread of sexually transmitted diseases like AIDS. 	Low
Occupational Health & Safety	<ul style="list-style-type: none"> Health & safety related problems to construction workers due to inadequate health & safety measures. 	Low
Community Health and Safety	<ul style="list-style-type: none"> Increase on incidence of road accidents due to disruptions caused in existing traffic movements. Inconvenience to the local residents and road users due to interference/ blockage of accessibility to houses, shops market, religious, cultural sites. Accident risks for school children due to construction activities close to the school building Health hazards due to dust generation and gaseous emissions during construction in built-up area and unhygienic conditions created at camp sites/borrow areas 	Low
SEA/SH and GBV risks	<ul style="list-style-type: none"> Generally, male labours are engaged by the contractor in the area for construction of bridges and roads and likelihood of women's participation for such work is very low. However, keeping in view the construction activities closed to habitation area and school may create moderate risk of SEA/SH and GBV due to labour influx and labour activities around such type of social sensitive site. 	Low
Impact on school activities	<ul style="list-style-type: none"> The proposed bridge and its approaches will not provide any kind of impact on school nearby as the government school nearby is located very far from the construction site. 	Low

PROPOSED SOCIAL MANAGEMENT PLAN

The Social Management Plan has been developed following the delineation of impacts and mitigation measures. These measures will be adopted by the project proponent and imposed as conditions of contract. The Management Plan has been formulated for implementation of social mitigation measures and it will be ensured that the provisions of the SMP are strictly followed and implemented by strengthening implementation arrangements to prevent and minimize the adverse impacts during Construction phase of the project. EMP will also addressed certain measures to be taken to prevent further deterioration of social components for various stages of the project.

Table 3-1: Social Management Plan (SMP)

Social component / Issues	Potential Impact	Mitigation Measures	Location	Time Frame	Institutional Responsibility	
					Implementation	Supervision
PC- DESIGN AND PRE-CONSTRUCTION PHASE						
PC-1 Joint Inspection of Site and Awareness Creation among local public	-	<ul style="list-style-type: none"> Joint inspection of the proposed site has been carried out by the with FPIU and PIU. Information regarding the construction of the bridge has been disseminated to the community and awareness also created among the community members about the possible risks, traffic diversion and social impacts during the construction period 	At project site	Pre-Construction Stage	FPIU & PIU PWD and Contractor	PMU
PC-2 Utility Shifting	• Disruption of services	<ul style="list-style-type: none"> There is no requirement of utility shifting for the construction of the bridge. 		Pre-Construction Stage	FPIU PWD & Contractor	PMU PWD
PC-3 Establishment of Construction / Workers Camp	• Disruption to Local community	<ul style="list-style-type: none"> Labour camp has been established near to the construction site. Labour camp is established away from the local community, thus there is low risk of disruption or conflict with the local community. 	At Project Site	Pre-Construction Stage	Contractor	FPIU & PIU PWD
C-2 LABOUR AND WORKING CONDITIONS						
C-2.1 Engagement of Labours: Employment Conditions	• Compliance of Labour Laws.	<ul style="list-style-type: none"> Labours for the construction work is hired on permanent as well as on temporary basis. Temporary labours are majorly hired from the nearby community. Payment to labours is made as per the prevailing rates in the State. Female labours will be hired as per the requirement during the construction work. Labour license has been taken, which is valid upto: 24 Nov 2025 Workmen Insurance Policy has been taken (Copy Attached). No child labour will be hired for the construction work. Attendance and wage register is maintained at the site. Quarterly health camp for the workers will be organized. Training on labor laws, health and safety, SEA/SH and on gender sensitization to labours and staff will be imparted on regular basis. All prevailing labour laws will be complied during the construction work. 	At Project Site	Pre-Construction stage during team mobilisation	Contractor	FPIU & PIU PWD
C-2.2 Labour Camp Management	<ul style="list-style-type: none"> Influx of migrant labour additional pressure on the local resources and social infrastructures Risk of social conflict 	<ul style="list-style-type: none"> Temporary labour camp is established on private land near to the project site. Labour camp is away from the vicinity of the community thus is low risk of social conflict. Agreement has been signed with the land owner for the establishment of the labour camp. Labour camp has four room to accommodate on an average 15 labours at a time. Separate kitchen facility is provided at the labour camp. 	Construction Camp	Construction Phase	Contractor	FPIU & PIU PWD

Social component / Issues	Potential Impact	Mitigation Measures	Location	Time Frame	Institutional Responsibility	
					Implementation	Supervision
		<ul style="list-style-type: none"> Cooking gas and stove is provided. Basic facilities including proper beds, lighting, potable drinking water and dustbins has been provided at the labour camp. Toilet and bathing facilities separately for male and female workers is provided at the camp. Proper hygiene and sanitation are maintained at the camp. First aid kit with essential medicines is kept at the camp. Labour register with name, age and sex with supporting document is maintained. For Waste management we have provided soak pits for liquid waste and for dry waste we have provided dust bins and dust bins are then transported to trenching ground through transportation. 				
	• Issues of SEA/SH and GBV	<ul style="list-style-type: none"> Training and awareness on POSH Act, laws for sexual harassment and gender-based violence and Worker Code of Conduct will be provided to labours and staff on regular basis. SEA/SH and GBV cases will be immediately raised to ICC constituted at the department. 	Construction Camp	Construction Phase	Contractor	FPIU & PIU PWD
C-3 COMMUNITY HEALTH & SAFETY						
C-3.1 Community Health & Safety	• Adverse social impact due to construction activities.	<ul style="list-style-type: none"> Mitigation measures are taken to minimize social risks and hazards. Proper caution boards, tapes, signage and barricading is done at the project site. Grievance Redressal Committee (GRC) is formed to address community complaints. Quarterly meetings of GRC will be conducted. No school, market or religious place are near to the project site. 	Project Site	Construction Phase	PIU, PWD & Contractor	FPIU & PIU PWD
	• Obstructing the access of community and passerby due to construction induced impact.	<ul style="list-style-type: none"> Proper caution boards, tapes, signage and barricading is done at the project site. Traffic diversion will be provided during construction period. Designated place for material stacking and debris disposal is identified and demarcated and signages are also put for the same. 	Project Site	Construction Phase	Contractor	FPIU & PIU PWD
C-3.2 STAKEHOLDER CONSULTATION	• Impact on local stakeholders due to construction activities	<ul style="list-style-type: none"> There is no utility shifting or hindrance of route. 	Along the Project alignment	Before commencement of project site activities.	PIU, PWD & Contractor	PIU & PMU, PWD
C-4 CULTURAL HERITAGE						
C-4.2 Chance Find of Archaeological Assets and artefacts	Risk of archaeological Chance finding	<ul style="list-style-type: none"> All the archaeological assets and artefacts such as ancient coins, ruins, archaeological deposits etc. if found will be immediately reported to the FPIU. All labours and staff will be made aware about finding any archaeological assets and artefacts during excavation work. 	Along the excavation area	During Construction Stage	Contractor in consultation with PIU PWD and Archaeological Department	FPIU & PIU PWD

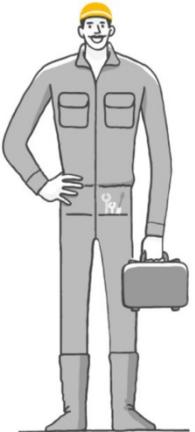

Social component / Issues	Potential Impact	Mitigation Measures	Location	Time Frame	Institutional Responsibility	
					Implementation	Supervision
		<ul style="list-style-type: none"> • Excavation work will immediately be stopped if any finds are suspected to allow further investigation.
